

SDSN Hong Kong *Monthly Highlight*

Envisioning a Sustainable Future

Global heating is busting budgets, ballooning food prices, upending energy markets, and feeling a cost-of-living crisis.

Climate action can flip the switch, and renewable energy is the gift that keeps on giving.

It is good for our planet, our health, and our economies.

António Guterres

Secretary-General, United Nations

Remarks at opening of World Climate Action Summit

Event Promotion
