Creating a brighter future for all

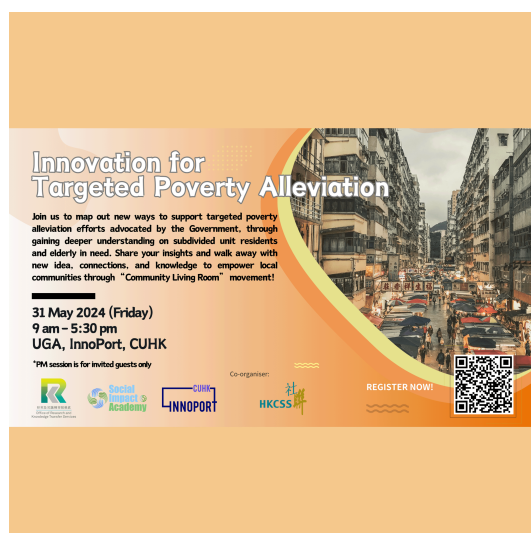

We must close digital divides, and move towards new governance structures for new technologies – harnessing artificial intelligence as a force for good for all humanity. Not just for the rich.

António Guterres

Secretary-General, United Nations

Remarks to the United Nations Civil Society Conference in support of the Summit of the Future

Event Promotion

Innovation for Targeted Poverty Alleviation

Experienced NGO leaders and CUHK professors will share how they leverage Community Living Room and related service as a platform to serve the communities in need through a whole-day programme.
